

## DAY/NIGHT CLIP-ON SYSTEM

## PS28-WPT

The PS28 is one of the simplest and easiest to use night vision scope attachments ever designed. The PS28 is what is known as a “clip on scope”, or a “day/night system.” The main benefit of a clip-on scope over a traditional night vision scope is the convenience of using your existing day scope and not needing to re-zero. Adding night vision to a scope is simple. The clip on scope easily attaches onto your weapons rail, in front of your regular day time scope. This Night Vision Clip On (NVCO) can be used with day scopes of up to 7x magnification for optimal performance and is equipped with a quick release mount.

- Easily changes daytime scope to Night Vision
- Mounts in front of daytime scope, no re-zeroing required
- Multi-coated all-glass optics
- Fast catadioptric front lens system
- Large 40 mm eyepiece/output window
- Lightweight and rugged
- Comes with Quick Release Mount
- Optional 7/8” weaver mount
- Optional Scope Mounting System for coupling to the objective of the day scope (25...62 mm diameter)
- Automatic Brightness Control
- Resistance to severe conditions
- Up to 50 hours of continuous operation with one Lithium battery
